DETAILED ACTION

1. Upon reconsideration, the finality of the office action is withdrawn, and the prosecution is reopened.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species:
 - species 1: Figures 1-3;
 - species 2: Figures 4-5B;
 - species 3: Figure 7-12;
 - species 4: Figure 14A;
 - species 5: Figure 14B;
 - species 6: Figure 14C;
 - species 7: Figure 14D;
 - species 8: Figure 14E;
 - species 9: Figure 14F;
 - species 10: Figure 14G;
 - species 11: Figures 15A and 15B;
 - species 12: Figures 16A-16C;
 - species 13: Figures 17-21;
 - species 14: Figures 22 and 23;
 - species 15: Figure 26-29;
 - species 16: Figures 30 and 30A;
 - species 17: Figures 31-36;

species 18: Figures 38 and 39;

species 19: Figures 40 and 41;

species 20: Figures 42-45;

species 21: Figures 47-47B;

species 22: Figures 47-49;

species 23: Figure 50;

species 24: Figure 51;

species 25: Figure 52;

species 26: Figure 53;

species 27: Figure 43; and

species 28: Figure 54A

The species are independent or distinct because they are structurally distinct having different utilities and functions and that they are no longer deemed as obvious variants as previously believed by the examiner.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3742

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sang Y. Paik whose telephone number is 571-272-4783. The examiner can normally be reached on M-F (9:00-4:00) First Friday Off.
